

# SaaS Based

CONSULTING & DEVELOPMENT COMPANY

HONESTY | INTEGRITY | TRANSPARENCY

# SaaS based Core Competences

## MULTI-TENANCY

- Single database.
- Multiple databases
- Multi servers with different geolocation.
- Managing multi-tenancy in hybrid model and in single database for SME's and Corporates.

## DATA SECURITY AND SERVER

- Architect solutions as per guidelines of VAPT.
- Firewall, Multi server.
- Use of encryption technologies and protocols for data storage & transactions.
- Product architecting & designing are done on the basis of compliance like GDPR, HIPPA, etc.

## INTEGRATION

- We have integration expertise with ProPay, Skyflow, Veriff, Stripe, WorldPay, and the different HRMS systems like Keka, Oracle, People soft.
- We eliminate the roadblocks that corporations require for any SAAS-based model.
- API exposure and cloud-server management.
- Integrations with already existing solutions.

## LOAD BALANCING AND BIG DATA MANAGEMENT

- We are handling the bulk data and latency issues on the servers. Low, per-user, server cost of less than Rs. 5 per month. Complete data archiving, server backup management, and server crash recovery. Make the uptime 99.9%.Handle multiple domains and transfer the load & content.
- Managing the performance of servers and load balancers.

# SaaS enablers since 8+ years

with 20+ years in IT experience

Ecommerce SAAS customized, multi stores, multi consumable items

**IoT SAAS** for Attendance and Time Tracking with RFIDS including complex situations in manufacturing units like L&T

“

*“Arya provided timely and professional services, They helped my company building the MVP of an Android Application sticking to the committed deadline. It was also my pleasure meeting Arya founders in my hometown Barcelona. I will not hesitate in referring Arya to my friends.”*

*“Working with Aryavrat has been a pleasure, Aryavrat team got our work done without any issues it problems. They were very open to accommodating the changes that we made during the project was going on. They carefully reviewed our requirements and delivered on time and on a budget!”*

*“It's been a pleasure working with Aryavrat Infotech. They have a team of skilled and reliable developers who have assisted me in building my MVP with quality and time. Currently work with Aryavrat on milestones of project and would recommend any other company looking for value and quality.”*

## Some of Our Clients

and a few testimonials

# We are globally recognized and certified

**ISO 27001:2013**  
Quality Management System

**ISO 9001:2015**  
Quality Management System

**10 REVIEWS**

100+ customers for 500+ web and  
mobile app projects

5/5 star for quality, reliability, skills and  
other factors

Great learning culture and well work  
environment

# The Problems

## we are solving

### CORE TECH COMPANIES

Need people who can work according to their plans

### START-UP FIRMS

Seek help to execute their concept to reality in limited budget

### SMALL & MEDIUM SIZED BUSINESS

The problem statement is known but is not able to convert it to technical IT statements which can be executed by IT teams

People who don't understand how to convert ideas into tech solutions

They understand the problem but fail to put it together with the right team

The delivered project are not as per the client expectation

Coders implement the logic but do not understand the business

There are issues with coding protocol. The codes are not reusable

The technology gets obsolete with delayed deliveries

Most companies cannot develop the product from scratch

They don't know how to digitize their business statement

Dedicated & capable team for end-to-end support

Mismanagement of budgets results in midway abandoning of projects

# Services as a solution

As a SaaS-based solutions company, we have products to help organizations to run more efficiently or automate internal functions. We help businesses to have their local network environment on the cloud and serve on a service-based model.

## START-UP CONSULTING

On-demand multi-device solutions from wireframing to prototyping, the MVP

## SME's

Efficient and innovative digital tools for businesses.

## ENTERPRISE

Digital transformation

## R&D PROJECTS

Hands holding for technically challenging ideas, from concept to launch

Timely Deliveries

Highly Secure & Reusable Code

Converting business complexity to tech solutions

Involved in complete life cycle of projects

Market analysis & idea validation

Flexible engagement models

Collaboration with minimizing cultural gaps

Work with both hardware and software solution services

Revenue generating product deliveries

Technology partner not a vendor

Deliver technically complex projects

# ARYA's expert elements to SaaS platform

# How it works?

## OUR AGILE APPROACH

We go beyond normal service providers. We actually understand what the problem statement is, if required we visit our client's workspace to find out how the system works, what gaps exist in their existing technology, and then integrate our solutions into their existing technology.

KEEPING CLIENTS ENGAGED AT EACH STAGE OF THE PROJECT

# "ARYA", we make ideas happen

We are the innovators and critical thinkers, and we deliver something that is usable from concept to visualisation.

We are a team of agile developers and tech enthusiasts who deliver fast and cost-effective solutions.

We are committed to developing enterprise-level, cutting-edge, technology solutions for small and medium-sized businesses.

## MISSION

To provide reusable code that goes above and beyond what the client anticipates from us.

## VISION

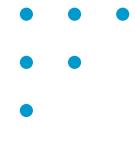

To assist those who are enthusiastic about technology but unsure of how to use it, and to aid them in developing scalable solutions.
